

John Seymour:

Professor John Seymour AM is a clinical haematologist and Director of the Department of Haematology of the Peter MacCallum Cancer Centre & the Royal Melbourne Hospital in Melbourne, Australia. He received his MB, BS degrees from the University of Melbourne in 1987, and completed a translational research fellowship at the MD Anderson Cancer Center in Houston, receiving their Distinguished Alumnus award in 2011. He has a PhD for research on the pathobiology of haematopoietic growth factors conducted at the Ludwig Institute for Cancer Research. Professor Seymour is the co-chair of the federal ministerial Blood Cancer Taskforce and a member of several national and international scientific committees including, the Scientific Board of the International Workshop on CLL, American Society of Hematology Scientific Committee on Lymphoid Neoplasia, Scientific Advisory Committee for the International Conference on Malignant Lymphoma, Medical Advisory Board of the Lymphoma Coalition, and the Board of Directors of the International Extranodal Lymphoma Study Group. He served for more than a decade as Executive member and Chairman of the major national clinical trials co-operative group in haematologic malignancies, the Australasian Leukaemia & Lymphoma Group, and 6 years as Associate Director of Research (Clinical) for Peter Mac. He is a frequent invited speaker nationally and internationally, member of numerous professional societies, an Editor-in-Chief of *Leukemia & Lymphoma*, and currently on the editorial boards of ten academic journals including *Blood*, *Journal of Clinical Oncology*, and the *British Journal of Haematology*. He has authored 19 book chapters, >500 peer reviewed publications (with >35,000 literature citations; h-index = 82), and >750 conference abstracts. Actively involved in a broad range of clinical and translational research, Professor Seymour has been the principal investigator on >85 clinical trials and chief investigator on competitive grants awarded >AUD\$95 million funding in the last 10 years. In 2015 he was awarded Membership of the Order of Australia, and elected to the Australian Academy of Health and Medical Sciences for his contributions to the field.
